Press Release

**Date of Release 12/1/2007**

## **The Advanced Orthopedics and Sports Medicine Institute, Freehold, NJ, Selects Award Winning Electronic Medical Records and Practice Management System**

Another important step in the fine tuning process of merging technical skills and enhancing patient care for the physicians and staff of the recently formed **Advanced Orthopedics and Sports Medicine Institute**, Freehold, New Jersey, was taken this month with the selection of an award winning Electronic Medical Records (EMR) and Practice Management (PM) system eClinicalWorks.

eClinicalWorks is a privately held leader in the unified EMR/PM ambulatory care market. The physicians of the **Advanced Orthopedics and Sports Medicine Institute, PC (AOSMI)** selected eClinicalWorks EMR to better meet the needs of the recently formed and significantly expanded practice, and enhance their focus on close doctor-patient relationships.

“We evaluated a number of EMR options from a clinician’s perspective” says Dr Michael J. Greller MD, FAAOS, and President of **AOSMI**. “We were also concerned to choose the most modern web-based technology for flexibility; we wanted technology that could scale, and we wanted security. With eClinicalWorks we got more features that ensure ease of use; customizable templates, and the alternatives of data entry through handwriting or voice recognition. Having made the vendor decision, we now look forward to the challenging task of implementation, and some immediate benefits such as in patient communication that ensure we deliver the best in patient care.”

**AOSMI** was formed in June 2007, with the merger of two of the area’s longest tenured practices; Western Monmouth Orthopedic Associates and New Jersey Orthopedic Associates, which had been providing quality orthopedic and sports medicine care for more than 25 years.

The **Advanced Orthopedics and Sports Medicine Institute** provides advanced medical care in Freehold, New Jersey, with leading doctors and orthopedic surgeons, state-of-the-art technology and exceptional **Patient-Centered, Patient-Focused Care™**. The seven practicing physicians at **Advanced Orthopedics and Sports Medicine Institute**

have a combined 100 years of experience providing exceptional orthopedic care to the New Jersey community.
